

## Leading Pharmaceutical Giant

**CHALLENGE:** To develop a portal to be developed for the purpose of tracking the current status of "Government Regulation Compliance Approval Process" for any given drug.

### COGENT Solution

Compliance Submission Initiative Portal was built to accommodate this need using Java J2EE technologies. The front-end is all JSP/Struts, while the back-end is implemented using time-tested J2EE patterns like business delegates, session facades, DAO.

**TOOLS USED:** Java (JDK1.4), J2EE, EJB 2.1, UML, JDBC, and PL/SQL, Oracle 10g, 9.2.x, 7.0 Weblogic 8.1 sp4, Tomcat Eclipse IDE, Ant, SQL Plus, Toad, Erwin, JUnit.
