

COGENT Empowers ArcelorMittal, World's Leading Steel Company

COGENT InfoTech brought to bear the power of IBM WebSphere in addressing Arcelor Mittal's IT integration needs. ArcelorMittal is the leader in all major markets, including automotive, construction, household appliances and packaging.

ArcelorMittal is the world's leading steel company with over 320K employees in more than 60 countries. It has led the consolidation of the world steel industry and today ranks as the only truly global steelmaker.

Talent evaluation, rapid deployment and delivering at a real world cost are everyday expectations at COGENT InfoTech.
